

Public Involvement and Community Outreach Services is a fast-growing segment of DESA's construction and engineering line of business. With our extensive database, strong connection to the community, and professional marketing, communications, and graphic design staff, we are a trusted partner for a growing number of construction and engineering firms. Whether your projects requires information sessions, press packets, grass roots marketing, direct mail campaigns, graphic design, newsletters, or social media promotion, our well-developed marketing strategies maximize exposure to help you reach your goals.
