

ROUND TABLE DISCUSSION FORM
Non Hospital Source (NHS) Reporting Questions

STATE: _____

1. What non-hospital sources (NHS) are reporting to you now?

Type of Source	Total in State	# Reporting	# Electronic	# to be Added	# Abstracts Received/Year	# New Cases/Year
Ambulatory Surg Centers						
Radiation Therapy Centers						
Cancer/Oncology Centers						
Hematology/Oncology Practices						
Doctors Offices (list specialties below*)						
Other source:						
Other source:						

*Doctors Offices: Specialties include:

1. How frequently does NHS report? How frequently do hospitals report in your state?

2. What data items are required to be reported? Same for all sources? Select item according to source? Would they share data sets if not same for all sources?

3. Who actually abstracts cases for each NHS? Contractor? Circuit riders? Facility employee? Do you require abstracter to be a CTR?

4. What kind of training does the person reporting for the NHS have? What does CCR provide?

5. What was your implementation/initiation process?

6. For facilities reporting electronically, how do they submit abstracts?
7. For facilities not reporting electronically, how do they report?
8. What are your plans for getting these sources to report electronically?
9. Is turnover of reporters a problem?
10. What were the problems/challenges with implementation?
11. What problems are there with routine reporting? Is turnover of reporters a problem?
12. What advice can you share regarding reporting by non hospital sources?
